

The Sleek is proof that true beauty is more than skin deep.

The Sleek w/ 19" LCD display is highlighted by the sleek, smooth and attractive architecture of the surrounding ABS plastic enclosure. This ABS kiosk is a clear winner when you consider the advantages of ABS plastic - The enclosure is high strength, impact resistant, corrosion resistant, RoHS compliant, has a shorter lead-time and is lighter weight than the metal version.

The Sleek includes a fan/filter system which is effective in removing up to 98% of all airborne contaminants and is 6x more effective than washable electrostatic filters.

Designed to be the perfect informational kiosk, the Sleek is often utilized for marketing and advertising purposes. The Sleek's inviting design is a great choice for applications such as way-finding, in-store cataloguing and product showcases, as well as directories.

Many clients use the Sleek for the following:

- **Business Directory/Wayfinding**
- **In-Store Cataloguing/Product Showcases**
- **Surveys & Lead Generation**
- **Human Resources**
- **Check-In/Check-Out**
- **eConcierge**
- **Branding/Advertising**
- **Sponsored Messaging**
- **Web-Based Applications**
